Insurance Requirement Checklist for IVIG

Getting your patients on to the therapies they need quickly and efficiently is our specialty. To help, we have put together a checklist to make sure you include everything needed to get your patient on to immunoglobulin (IG) therapy as quickly as possible.

Let's get started!

Step 1: Gather prescription and clinical documentation
Step 2: Fax signed prescription and clinical documents to 562.222.3320. You can also escribe prescriptions to **California Specialty Pharmacy, NCPDP: 5638246, NPI: 1114239332.**

Our team will follow-up within a few short hours, but if you have any questions about the referral or required documents, contact your California Specialty Pharmacy representative or call us at 877.602.7779.

Typical insurance requirements:

- ☐ **Patient demographic information**
- ☐ **ICD-10 code** *(make sure script and clinical notes have same code listed)*
- ☐ **Copy of insurance card** *(front and back)*
- ☐ **Signed referral form and/or prescription**
- ☐ **Clinical notes** *(2-3 most recent)*
- ☐ **Any lab work pertaining to the diagnosis**
- ☐ **Documentation of tried and failed therapies**

Additional disease-specific requirements that may be necessary:

Common variable immunodeficiency (CVID)
Typical ICD-10 codes:
D83.0, D83.1, D83.2 D83.8, D83.9
- ☐ Labs showing low IgG levels
- ☐ Vaccine challenge (most commonly pneumococcal)
  - ☐ Titers pre- and post-vaccine

Severe combined immunodeficiency (SCID)
Typical ICD-10 codes:
D81.0, D81.1, D81.2, D81.89, D81.9
- ☐ Labs showing low-to-absent IgG, and low IgA, IgM, and IgG subclass levels
- ☐ Labs showing low T-cells and/or documentation of low TRECs at birth

Non-familial hypogammaglobulinemia
ICD-10 code: D80.1
- ☐ Labs showing low IgG levels
- ☐ Vaccine challenge (most commonly pneumococcal)
  - ☐ Titers pre- and post-vaccine

Hereditary hypogammaglobulinemia
ICD-10 code: D80.0
- ☐ Blood work/testing (IgG levels should be lower than 200 mg/dL, low or absent B cells)

Selective IgG subclass deficiency
ICD-10 code: D80.3
- ☐ Labs showing normal total IgG levels
- ☐ Labs showing low IgG subclasses, excluding subclass 4
- ☐ Vaccine challenge (most commonly pneumococcal)
  - ☐ Titers pre- and post-vaccine

Selective IgA subclass deficiency
ICD-10 code: D80.2
- ☐ Labs showing normal total IgG levels
- ☐ Labs showing low IgA levels
- ☐ Vaccine challenge (most commonly pneumococcal)
  - ☐ Titers pre- and post-vaccine

Specific antibody deficiency (SAD)
ICD-10 code: D80.6
- ☐ Labs showing Ig levels, may or may not be low
- ☐ Vaccine challenge (most commonly pneumococcal)
  - ☐ Titers pre- and post-vaccine
